

Broadcast Engineering annonce la liste des gagnants des "Pick Hits awards" pour le NAB 2009.

Broadcast Engineering has announced the winners of its Pick Hits awards for NAB2009. A panel of independent judges toured the show floor for three days, looking for innovative products and technology. The judges then met to make their selections based on several criteria, including the technical and financial improvements the product can bring to a facility's operation. Our editors and publishers have no vote in the selection process.

Congratulations to the following manufacturers for their innovative and creative technology solutions:

1 Beyond EzHDSAN

360 Systems MAXX-2400 HD

AJA Video Ki Pro

Apantec Tahoma LE-4

Argentum ATBTraffic

Avocent HMX

BAL (Claratech) Floorman

BitCentral Oasis Media Marketplace

Blackmagic Design Decklink HD Extreme

Compix CynerG2

Echolab Atem

ERI Stingray UDP

Evertz Intellirack

Fujitsu IP-9500
