L'équipe CTM vous annonce la disponibilité de la version 4.1 / 4.0.1 de Avid Isis. Plusieurs nouveautés dont la compatibilité/support avec des nouveaux équipements de commutation Arista Networks 7048T & Cisco Catalyst 4500-X (Switchs Ethernet Qualifiés avec Avid ISIS 5000 & ISIS 7000) :

la version compatible avec ISIS 2000 (Nearline Avid), et des corrections et améliorations pour les systèmes Avid ISIS 5000 et Avid ISIS 7000. Ce client permet ainsi d'unifier les versions clientes pour tous les SANs Avid ISIS...

La version Avid® ISIS® v4.1 intègre :

- ISIS v4.1 unified client for ISIS 2000, ISIS 5000 and ISIS 7000
- ISIS v4.1 server (Storage Manager and System Director) for ISIS 2000
- ISIS v4.0.1 server (Storage Manager and System Director) for ISIS 5000
- ISIS v4.0.1 server (Storage Manager and System Director) for ISIS 7000

ISIS 2000 Near Line Storage

The ISIS 2000 is a high density, workflow integrated near line tier solution that makes more assets readily accessible, enabling cost effective proxy workflows and project parking. ISIS 2000 uses the media optimized ISIS File System and is tightly coupled with Avid Interplay Production Asset Management (PAM). Recent releases of Interplay PAM support multiple ISIS systems, allowing assets to be stored on the appropriate tier of storage, while retaining the accessibility of media.

(Voir aussi [ISIS 2000 - Caractéristiques principales](#) - Fiche Produit)

ISIS Management Console

The ISIS management console now shows a unique background color to identify which ISIS product is being managed. In addition, the icons in the Management home page are now displayed vertically.

- ·ISIS 7000 has an emerald green home page
- ·ISIS 5000 has a blue home page
- ·ISIS 2000 has a hazel home page

ISIS Client and Server Compatibility

ISIS v4.1 client is designed to be used with all ISIS storage solutions. This single client enables simultaneous connectivity to ISIS 5000 / ISIS 7000 online storage and ISIS 2000 near line storage systems.

The ISIS v4.1 Client is qualified with the following ISIS server versions:

Product

System Director / Storage Manager versions (ISIS server)

ISIS 5000

v3.2, v4.0.1

ISIS 7000

v2.4, v4.0.1

ISIS 2000

V4.1

Avid Editor Compatibility

ISIS 4.1 / 4.0.1 is qualified with Avid Media Composer v5.5 and v6.0.x and NewsCutter v9.5 and v10.0.x.

Note: *ISIS v4.0 client is the current qualified client for use with Media Composer v6.5. A future ISIS client release is planned to support Media Composer v6.5 with ISIS 2000. Customers working with Media Composer v6.5, Symphony v6.5 and NewsCutter v10.5 should remain on ISIS v4.0 as we have not completed qualification of these versions with ISIS v4.0.1 with the ISIS Client Manager v4.1*

Supported Operating Systems
